

## # Contact Manager Sprint 2

### ## Problem Statement

Contact Manager is an application which helps us to manage our contacts in a more efficient way.

### ## User Stories

1. As a user I should be able to see my previous additional contacts.
2. As a user I should be able to Modify my contacts.
3. As a user I should be able to delete the contact.
4. As a user I should be able to get the proper error message if the record is not added.
5. As a user I should be able to get the proper message as soon as my record is added

### ## Instructions:-

1. Please refactor the code in sprint 1
2. Use JSP to perform the above actions
3. make sure to use all necessary jsp tags for best optimization of UI
4. Estimated completion time of the challenge will be 2hr.
